Date of Establishment: October, 2006
Number of staff: Worker 300, R&D 26, QC 10
Company Size: covering 120,000 square meters
Covered Area: 81,000 square meters
Capacity: 50,000pcs LED lamps per day

- QC/Testing Details:**
- We design all aspects of construction. Testing is taken to the limits of between -20°C and 50°C for more than 100 hours to check on the stability of the item.
 - Major parts such as LED chips are tested to their limit for a continuous 20 hours. Test reports are then used to determine the suitability and product life.
 - All raw material have a quality control inspection when sourced, during production. At the completion of manufacture the items are then subjected to a further 5 hours of testing.
