Olá!

Merhaba! Привет!

¡Hola! Hello! Hallo!

你好!

Namaste! Bonjour! คุณเป็นยังไงบ้าง!

WELCOME
TO
OUR
WORLD

Building on 15 years of design and production expertise,we look very ambitious but confident towards the future.
We continuously invest in people,in the market,in production facility. Aiming to upgrade our product,expand our R&D department family and laboratory facitities. We are heading to be the best and the most professional led luminaire manufacturer

SKD

## SKD business support program, to let our customers produce each luminaire like us.

Hand in Hand Service:

- Providing more than 200 stylish products in SKD or CKD style.

- Trainning technicain and worker for our customer.

- Conduct on site, ensuring partner's process implement.

- Technical back up. Figure out the improvement solution for our customer.

- Customized new product design & Mold engineering.

LED **CEILING** LIGHT

This series is an innovative range of professional recessed spotlight fittings created to deliver a high lighting performance,with an eye on energy saving and excellent visual comfort. Form 3W to 50W, a complete , flexible products range,extremely versatile in its many applications such as shops and showrooms and able to meet challenges lighting performance criteria.

A good light, forever!

Full PC body & Safety & Fashion & Elegant design

36 degree lens with 95% efficienay anti-glare.

Push&Lock system

LED **DOWNLIGHT**

Here we provided a wide range of led downlight,from 5W to 40W,from 3 inch to 10 inch , with distinguished design . Thanks to the excellent heatsink design ,our downlight maintain a long life and high efficiency while providing maximum luminous flux . The color temperature and color rendering indix are maintained constant throughout the lifespan of those products, guaranteeing a consistent light quality. These items can be used in the applications like shops , hotels , home , office .

LED **BATTEN** LIGHT

Here we present you a full series of led batten light in different sizes(10mm to 100mm in width,300mm to 1800mm in length), lumen output and design. Thanks to its streamline design, it's a perfect and modern lighting solution for any big area such as office , supermarket and car park. With the surface mounted and linkable design, the installation is much more easier than other luminaries.

IPXX, the first digit represents the protection degree of the equipment against penetration of solid bodies, and the second represents degree against the penetration of liquid bodies.

IP FIGURES

IPXX

SOLID BODIES   **LIQUID BODIES**

Without protection	0	Without Protection
Protection against solid bodies with>50mm diameter	1	Protected Against Vertical Fall Of Water Drops
Protection against solid bodies with>12mm diameter	2	Protected Against Fall Of Water Drops In A Maximum Angle Of 15
Protection against solid bodies with>2.5mm diameter	3	Protected Against Fall Of Water Drops In A Maximum Angle Of 60
Protection against solid bodies with>1mm diameter	4	Protected Against Water Projection
Protection against solid bodies with<1mm diameter	5	Protected Against Water Jets
Totally sealed against dust	6	Protected Against Sea Waves
	7	Protected Against Dipping Effects(max 1m)
	8	Protected Against Prolonged Dip

The characteristics of the electrical equipment case to external influences are defined with codes.

LED BULKHEAD

Indoor lighting   ⊙ Outdoor lighting

Zone 0 is inside the bath or shower itself .Any fitting used in this zone must be IP68 low voltage (max 12v).

Zone 1 is the area above the bath to height of 2.5m from the floor . In this zone a minimum rating of IP44 is required. if the fitting is 240v a 30mA residual current device (RCD)must also be used to protect the circuit in this zone.

Zone 2 is an area stretching 0.6m outside the perimeter of the bath and to a height of 2.25m from the floor . In this zone an IP rating of at least IP44 is required. In addition, it is good practice to consider the area around a wash basin(within a 60cm radius of any tap)as zone 2.

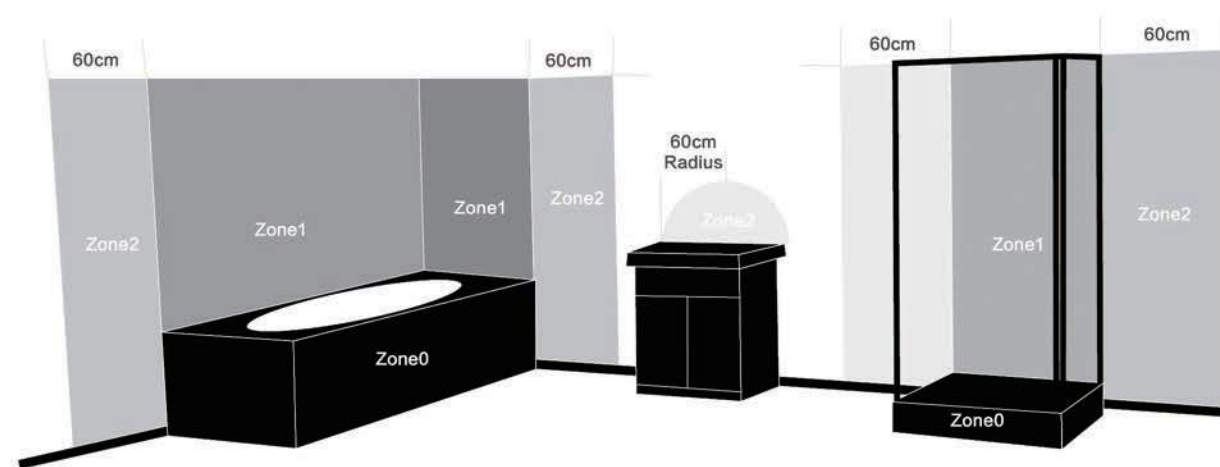

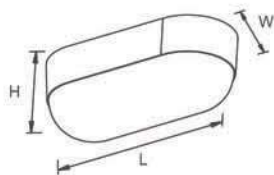

Outside zones is anywhere outside zone 0,1 and 2 (subject to specific limits)and where no water jet is likely to be used.No IP rating is required. In addition to the above , if there a likelihood of water jets being used for cleaning purposes in zones 1,2 and "outside. zone"a fitting rated a minimum IP65 must be used .
